ZDAJ JE ČAS. Da »raziščete, občutite in užijete« Turistično destinacijo Rogla-Pohorje. Da si vzamete čas za odkrivanje njenih skritih koticov – zelenih planj, vintgarjev, vodnjakov, starih samostanov, skrivnostnih obzidij, številnih cerkva, nenavadnih poti med krošnjami dreves in vesoljskih dognanj. Možnosti je neskončno. Od tistih bolj adrenalinskih, do umirjenih in meditativnih, ter celo virtualnih – vedno pa v objemu neokrnjene narave. **Zelena. Varna. Prijazna. Trajnostna. Pristna. Okusna.**

Prisluhnite pticam, šumenju vode, vetru. **Prisluhnite govorici gozda.** Spregovorite z naravo. Dovolite, da se vas **Rogla in Pohorje** dotakneta z vso svojo lepoto. **Zdaj je čas** za počitnice sredi pohorskih gozdov in zelenih ravnin. UREJENO IN ČISTO OKOLJE / AN ORDERLY AND CLEAN ENVIRONMENT

Urejenost in čistoča javnih površin je mestna osebna izkaznica. Kaže na spoštljiv in odgovoren odnos prebivalcev do svojega. Za urejenost prostora v katerem se gibljemo lahko največ naredi vsak posameznik sam. Prizadevati si moramo, da z javnimi površinami ravnamo tako skrbno in odgovorno, kot s svojimi zasebnimi. / The tidiness and cleanliness of public areas in a city act as its identity card. If these spaces are well maintained, it demonstrates a respectful and responsible attitude of the inhabitants towards their home. Everyone can do their bit to contribute towards order in the spaces they occupy. We should strive to treat public spaces as carefully and responsibly as we treat our private ones.

JKP Delujemo zeleno, odločamo modro!

AMBASADORKA TURISTIČNE DESTINACIJE ROGLA-POHORJE: KATJA TEMNIK, NAJBOLJ INOVATIVNA KMETICA LETA 2019 – ZELIŠČNI VRT MAJNIKA

the most innovative female farmer of 2019 – Majnika Herb Garden

KATJA TEMNIK

Foto: Jurel Gantar

Katja Temnik je mlada prevzemnica kmetije, ki se je odločila, da kmetijo modernizira, preusmeri, razširi in ustvari delovno mesto zase in za druge. Več let je bila profesionalna košarkarica doma in v tujini, je magistrica znanosti in govori šest jezikov. Obdeluje 5,2 ha površin v Žičah in Brezju pri Poljčanah, ima ekološki certifikat za pridelavo in predelavo. Prideluje po biodinamični metodi kmetovanja, s katero krepi rastline in bogati zemljo.

Na Zeliščnem vrtu Majnika v Žičah raste več kot 160 različnih zelišč. Vrt obiskovalcem z veseljem razkažejo in predstavijo, organizirajo pa tudi naravoslovne dneve in delavnice. Katja Temnik, ki vrt obdeluje skupaj z mamo Majdo, je bila proglašena za spletno zmagovalko za najbolj inovativno mlado kmetico leta 2019 ter za najboljšega podjetnika v kmetijstvu 2020 po izboru strokovne komisije Agrobiznisa.

KAJ POMENITA TA NASLOVA ZA VAŠO KMETIJO, ZA VAŠE DELO? STA VAM ODPRLA VRATA V NOVE POSLE, OLAJŠALA VAŠE DELO V SMISLU PROMOCIJE, IZBOLJŠALA PREPOZNAVOST?
Ta naslova sta predvsem priznanje, da ljudje v Sloveniji podpirajo trajnostno kmetijstvo in razvoj podeželja ter da si želijo zdravo pridelano hrano. Prav tako naslov Agrobiznisa za najboljšega podjetnika v kmetijstvu kaže, da v podjetju ali kmetiji ni več najpomembnejši dobiček, temveč v ospredje ponovno prihajajo odnosi – tako med ljudmi, ki delamo skupaj, kot odnosi do rastlin, živali in narave nasploh. Oba naslova sta bila medijsko zelo odmevna in sta pripomogla k naši prepoznavnosti po vsej Sloveniji.

KATERE IZDELKE PONUJATE IN KAJ LAHKO OBISKOVALCI DOŽIVIJO NA VAŠI KMETIJI MAJNIKA?

Najbolj iskana je kuhinjska zeliščna sol Majnika, ki naše jedi obogati s slastnim okusom in vonjem. Izdelujemo tudi Premium zeliščno sol s korenino svetlobe, pa vrsto zeliščnih čajev najrazličnejših okusov in namenov za podporo našemu zdravju in dobremu počutju. Od jeseni do spomladi pridelujemo tudi kalčke. Obiskovalce pri nas prevzame predvsem naša pristnost in prisrčnost ter velika pestrost rastlin na zeliščnem vrtu in kmetiji. Zelo velik poudarek dajemo biodiverziteti, saj tako ohranjamo številne rastlinske in živalske vrste, hkrati pa ta pestrost daje boljše kvaliteto zeliščem, ki jih pridelujemo. Vse to predstavimo obiskovalcem na primeren način – otrokom skozi igro in različne aktivnosti, odraslim skozi voden sprehod po zeliščnem vrtu Majnika in prikazom dobre prakse.

KAJ VAS PRI VAŠEM DELU IN NAČINU ŽIVLJENJA NAJBOLJ OSREČUJE IN VAM DAJE NAVDIH ZA NOVE IDEJE, PROJEKTE?

Zelo veliko mi pomeni kvalitetno delovno in bivalno okolje – to pomeni, da sem vseskozi v stiku z naravo in da pri nas skrbimo za pristne in dobre odnose tako z ljudmi, s katerimi sodelujemo, kot z ljudmi, ki nas obiščejo. Skrb za človeka in naravo ter misel na tiste, ki bodo čez 100 let živeli na naše kmetiji, vodi vsa moja dejanja ter daje smisel mojemu delu in življenju.

Katja Temnik is a young farm owner that has decided to modernise, relocate and expand the farm in order to create a working space for herself and others. She was a professional basketball player for many years, competing at home and abroad. She has a master's degree in science and speaks six languages. She cultivates

5.2 ha of land in Žiče and Brezje, near Poljčane, and has an organic certificate for cultivation and processing. Everything is grown according to the biodynamic method of farming, which strengthens plants and enriches the soil. More than 160 different herbs grow in the Majnik Herb Garden, in Žiče. The garden is pleasantly displayed to visitors and open to organised science days and workshops. Katja Temnik, who cultivates the garden together with her mother, Majda, was declared the online winner for the most innovative young farmer in 2019, and the best entrepreneur in agriculture in 2020 by the expert commission of Agribusiness.

WHAT DO THESE TITLES MEAN FOR YOUR FARM AND FOR YOUR WORK? DID THEY OPEN THE DOOR TO NEW BUSINESS FOR YOU, MAKE YOUR WORK EASIER IN TERMS OF PROMOTION, OR IMPROVE YOUR VISIBILITY?

These titles are primarily a recognition that people in Slovenia support sustainable agriculture and rural development and that they want healthy food. Also, the title from Agribusiness for the best entrepreneur in agriculture shows that profit is no longer the most important thing in a company or farm. It shows relationships have come to the forefront again. This is seen in two ways. One is where people are working together and the other is the relationships with plants, animals and nature in general. Both titles were very popular in the media and contributed to our recognition throughout Slovenia.

WHAT PRODUCTS DO YOU OFFER, AND WHAT CAN VISITORS EXPERIENCE ON YOUR MAJNIKA FARM?

The most sought after product is the kitchen herbal salt Majnika, which enriches our dishes

with a delicious taste and aroma. We also produce Premium herbal salts with Light Root, as well as a range of flavoured herbal teas made to support health and well-being. We also grow sprouts from autumn to spring. Our authenticity and kindness, as well as the great variety of plants in the herb garden and farm, enthuse our visitors. We place great emphasis on biodiversity, as we preserve many plant and animal species. This diversity, in turn, gives a better quality to the herbs we grow. We present all this to visitors in a palatable way – for children through play and various activities, and for adults, with guided walks through the herb garden of Majnika and demonstrations of good practice.

WHAT MAKES YOU HAPPIEST IN YOUR WORK AND LIFESTYLE, AND WHAT GIVES YOU INSPIRATION FOR NEW IDEAS AND PROJECTS?

A quality work and living environment means a lot to me – it means that I am in constant contact with nature and that I am taking care to create genuine, good relationships with the people we work with and with the people who visit us. Caring for mankind and nature. And the thought of those who will live on our farm in 100 years guides all my actions and gives meaning to my work and life.

»Za dežjem vedno posije sonce« in čeprav se vsi skupaj soočamo s situacijami, ki jih doslej nismo poznali in jih je nemogoče predvideti, nam tako imenovana nova realnost ponuja nekaj izjemnih priložnosti – tudi pri preživljanju počitnic oziroma prostega časa. Če jih znamo prepoznati in se jim prepustimo, nas zagotovo navdušijo. Takšne počitniške priložnosti ponujata Rogla in Terme Zreče – in to čisto blizu doma 😊.

HVALEŽNI MORAMO BITI ZA ZRAK, KI GA DIHAMO.

Čist in svež zrak je ena izmed najpomembnejših vrednot, s katerimi se postavlja zeleno Pohorje. Na Rogli, v klimatskem letovišču, ki se ponaša, z zdravilno srednjegorsko klimo, zrak značilno diši po iglicah, ugodne poletne temperature pa nam vedno omogočajo pohod do nekaterih najslavnejših točk v Sloveniji: barjanski svet Lovrenških jezer, skrivnosten Lukov slap ali mogočen slap Šumik v pohorskem pragozdu. Potepanje z običajnim ali električnim kolesom pa nas pripelje do Skomarja, idilične najvišje ležeče strnjene vasice v Sloveniji, Osankarice v bližini zadnjega počivališča mogočnega Pohorskega bataljona ali Zlatega griča med strnjnimi vinogradi ob robu Dravinjske doline.

POMEMBNO SI JE VZETI ČAS ZASE, SE UMIRITI IN SE SPROSTITI.

Tudi v vsakdanjem vrvežu, ki ga od nas zahteva življenje, si je potrebno vzeti čas, da se umirimo, preživimo več časa z družino in se sprostimo, ko nas pesti stres. Blagodejna termalna voda v Termah Zreče je naravni zdravilni faktor, ki s koristnimi minerali poskrbi za naše počutje, prijetna toplina pa nas popolnoma sprosti. Za drugačne vrste sprostitev in povezanost z naravo poskrbimo z bosonogim sprehodom po Čutni poti na Rogli in občutimo hrapavost lubja, oblike proda, mehko mahu. Prisluhujemo pticam in šelestenju gozda. Ob poti pa na geomantijskih točkah Energijskega parka Rogla z izrazitim značajem miru črpamo zdravilno energijo Zemlje.

PRAV JE, DA OTROKOM POKAŽEMO, KJE SMO DOMA.

Raziščimo koticke in doživljaja blizu svojega

doma, ki jih mogoče sploh ne poznamo, še manj pa, da bi jih zares razkazali svojim otrokom in jim privzgojili tako pomembno ljubezen do domovine. Odpeljimo jih na vsaj eno izmed pristnih doživetij v zelenju blizu doma:

- Leseno **Pohorsko vasico** na Rogli sestavlja devet tematskih hišic in cerkvice z novo didaktično igro v vsaki od njih.
- Od tam se lahko podamo na **Jezernikovo pot do vodnega parka** ter med smrekami, jasami in ob gozdnem potočku spoznamo mlinčke in poiščemo Jerine zlatnike.
- Švignemo lahko po 1.360 metrov dolgem vijugastem sankališču **Zlodejevo** in zaužijemo sladek adrenalin na čistem pohorskem zraku.
- V **Termah Zreče** čofnimo v bazene v prijetni senci visokoraslih smrek in se spustimo po toboganih Gozdnega vodnega parka.
- Pravcata posebnost je **Škratova učna pot**, na kateri nas zdaj poleg poučnih tabel, lesenih skulptur pohorskih živali in zbiranja šestih prikupnih žigov v zameno za nagrado spremlja še čisto pravi, digitalni Škrat. Na svoj mobilni telefon ali tablico namestimo brezplačno aplikacijo Pohorski škrat, ki ga bomo skozi ekran videli kar v resnični naravi, ki nas v tistem trenutku obkroža. Zaupal nam bo nekaj naravoslovnih znamenitosti in nas nasmejaj. Za lahko noč pa lahko preberemo še škratovo pravljico.
- Se sprehodimo po edinstveni **Poti med**

krošnjami Pohorje na Rogli ter si svet okoli nas ogledamo s ptičje perspektive. Za konec se z vrha stolpa spustimo po čisto novem – dobri 60 metrov dolgem – toboganu.

Gremo na lepše – najlepše je blizu doma. Na Rogli in v Termah Zreče.

»The sun always shines behind the rain« and we are all facing situations that we have not experienced before. It is impossible to predict what will happen. But, the so-called new reality offers us some extraordinary opportunities – even when spending holidays or free time. If we know how to recognise the opportunities and let them happen, we will definitely feel excited. Rogla and Terme Zreče offer such holiday opportunities – very close to home 😊.

WE NEED TO BE GRATEFUL FOR THE AIR WE BREATHE.

Clean and fresh air is one of the most important values of green Pohorje. Rogla is a renowned climatological resort that boasts a healing mid-mountain climate, air that smells like tree needles, and favourable summer temperatures. Rogla's climate allows us to hike to some of the most picturesque points in Slovenia like the moor world of the Lovrenc lakes, the mysterious Lukovo Waterfall, or the mighty Šumik Waterfall in Pohorje's primeval forest. Cruising with a regular or e-bike takes us to Skomarje, an idyllic high-lying compact village in Slovenia, to Osankarica near the last resting place of the mighty Pohorje Battalion, or to Zlati grič among compact vineyards at the edge of the Dravinja Valley.

IT IS IMPORTANT TO MAKE TIME FOR YOURSELF.

Even in the daily hustle and bustle that life demands of us, it is necessary to take time to calm down, spend more moments with family, and relax when we are plagued by stress. Fragrant thermal water in Terme Zreče is a natural healing agent that takes care of our well-being with useful minerals, and the pleasant warmth completely relaxes us. For different types of relaxation and connection with nature, we offer a barefoot walk along

the Trail of the Senses on Rogla to feel the roughness of bark, the shape of gravel, and the softness of moss. We listen to the birds and the rustle of the forest. Along the way, we draw the healing energy of the Earth at the geomantic points of the Rogla Energy Park which has a distinct character of peace.

IT IS RIGHT TO SHOW CHILDREN WHERE WE ARE AT HOME.

Let's explore corners and share experiences near our home that we don't yet know. Let's show them to our children and instil in them an important love for the homeland. Take them to at least one of the authentic green experiences near home:

- Wooden **Pohorje village** on Rogla which has nine themed houses and a church with a new didactic game in each of them.
- From there, we can head along the spruces and clearings to **Jezernik's Trail and the Water Park**. Among the forest brook we get to know the mills and find Jera's gold coins.
- We can ride down the 1,360-meter long winding **Zlodejevo Sledding Area** and ingest sweet adrenaline in the clean Pohorje air.
- At **Terme Zreče** we dive into pools under the pleasant shade of tall spruce trees and descend slides of the Forest Water Park.
- **The Dwarf's Educational Trail** is a real speciality where, in addition to educational boards, there are wooden sculptures of Pohorje animals and a collection of six cute stamps to exchange for a prize. Now, we are accompanied by a real, digital Dwarf. You can install the free Pohorje Dwarf application on your mobile phone or tablet, where you will see through the screen into the living nature that surrounds us at that moment. The Dwarf will entrust you with some natural sights and make you laugh. For a really good night, you can read a dwarf fairy tale.
- You walk along the unique **Pohorje Tree Top Walk** on Rogla and see the world around from a bird's eye view. Finally, you descend from the top of the tower on a brand new 60-meters long slide.

Let's go for the best – the best is close to home. At Rogla and at Terme Zreče.

6 ŽIČKA KARTUZIJA ŽIČE CHARTERHOUSE

Foto: Vid Pomikar, www.slovenia.info

Včasih se nam dogodi, da pridemo na kraj, ki nas osupne. Kraj kot je Žička kartuzija, v odmaknjeni Dolini svetega Janeza, kamor so se v 12. stoletju naselili menihi iz francoske Velike kartuzije. Samostan je svoj čas veljal za evropski kulturni epicenter. Ponašal se je s knjižnico, ki je štela preko 2.000 knjig, tukaj so skoraj štiri stoletja nastajali znameniti srednjeveški rokopisi. Redovno življenje je zamrlo, ko jo je z dekretom leta 1782 ukinil cesar Jožef II. Posebna energija tega prostora, mir in spokojnost ter zavedanje o tem, da je tukaj nekoč stalo nekaj pomembnega, so vodilo obnovitvenih del, ki potekajo že več kot 30. let. Sodobnemu človeku danes ponuja možnost ponovne vzpostavitve notranje harmonije, daleč od hrupa vsakdana. / *Sometimes, we come to a places that simply astonish us. Such feelings can be experienced when entering the mysterious world behind the walls of Žiče Charterhouse in the remote Valley of Saint John, where the monks from French Grande Chartreuse settled in the 12th century. The monastery was considered a European cultural epicenter. It boasted a library of over 2,000 books, and here, for almost four centuries, the famous medieval manuscripts were written. The monastery was finally closed by decree of the Austrian Emperor Joseph II in 1782. The special energy of this place, with its peace and tranquility, creates an awareness that something very important was located here once. For this reason, renovation works have been on-going for more than 30 years. In modern times, this location offers the possibility of restoring one's inner harmony far from the noise of everyday life.*

Skomarska hiša iz leta 1803 sodi med najpomembnejše kulturne spomenike na območju južnega Pohorja in Dravinjske doline ter je zasnovana kot prehodni tip med poznosrednjeveško dimnico in razvojno naprednejšo hišo s črno kuhinjo. Skomarska hiša leži v vasi Skomarje, ki spada med najvišje ležeče slovenske vasi s še vedno prevladujočim kmečkim prebivalstvom. Prav tu je ohranjenih nekaj imenitnih kulturnih spomenikov in naravnih znamenitosti. Možen je tudi ogled Vodovnikove zbirke in cerkve sv. Lamberta. V Skomarški hiši se odvijajo tudi številni kulturni dogodki, med najbolj odmevnimi in priljubljenimi je mesečno srečanje literatov in drugih kulturnikov na prireditvi »Jest' mam en stari znucan koš«, ki jo organizira KUD Vladko Mohorič iz Zreč. / The 1803 Skomarje House is one of the most important cultural monuments in Southern Pohorje and the Dravinja valley. It was designed as a transitional type between a late medieval smokehouse and a developmentally more advanced black kitchen house. The Skomarje House lies in the village of Skomarje which is one of the highest-located Slovenian villages. The inhabitants are still predominantly rural. Here you can find some outstanding cultural monuments and natural attractions. It is also possible to visit the Vodovnik's collection and the Church of St. Lambert's from here. Numerous cultural events take place at the Skomarje House and among the most remarkable and popular are the monthly writer's meetings and the meeting of cultural workers at the event "I've Got an Old Worn-Out Basket" which is organised by the KUD Vladko Mohorič, from Zreče.

Graščina Oplotnica ob majhnem parku v središču Oplotnice je spomenik podeželskega razkošja z enimi najlepših primerkov štukatur daleč naokrog. Majhen park v središču prav tako majhne Oplotnice, ob razigranem potoku Oplotniščica, preseneti pogled na zajeten in očitno bogat dvorec. Graščina Oplotnica se imenuje tudi Žički dvorec, saj so ga v svoji častitljivi 600-letni zgodovini zgradili kartuzijani iz Žičke kartuzije. Občina Oplotnica se je njegove celovite prenove lotila leta 2010. / The Oplotnica Mansion is next to a small park in the center of Oplotnica. It is the monument of countryside splendour with one of the finest stucco specimens near and far. A small park in the center of the equally small Oplotnica, along the playful Oplotnica stream, will surprise you with a view of the spacious and obviously rich mansion. The Oplotnica Mansion is also called Žiče Manor, since it was built by the Carthusians of Žiče Charterhouse in the course of their venerable 600-year history. The municipality of Oplotnica undertook its complete renovation in 2010.

Zlodejevo, 1.360 m dolgo vijugasto sankališče, ki že v imenu obljublja drugačno izkušnjo. Čeprav mu pravimo sankališče, po njem dravimo vse leto - drvi vsaj večina, ostali pa uživajo v pohorski gozdni okolici, saj lahko hitrost reguliramo sami. Zlodejevo je povsem varno sankališče, zato so nanj vabljeni tudi otroci. Avantura se konča na nadmorski višini 1.340 m, od tam pa vas vlečnica skupaj s sanmi pripelje nazaj na vrh. / Zlodejevo is a 1,360 m long, winding slide, which promises a new experience. You can speed on it all year round - at least most people do, but as the speed can be regulated by the driver, some rest in their descent and enjoy the surrounding Pohorje forest. Zlodejevo is thrilling but perfectly safe, so all children are invited. The adventure ends at an altitude of 1,340 m. From there, the ski lift takes you back to the top along with the sled.

Med dobrotniški dejansi Konjičanov prav gotovo izstopa tisto iz leta 1863, ko je konjiški rojak Franc Saleški Lambrecht daroval veliko vsoto denarja za dom ubogih in ustanovil Zavod Franca Lambrechta za ostarele in pomoči potrebne tržane, ki spada med prve tovrstne domove na Slovenskem. Na rodbino Lampret iz Škalc v matičnih knjigah konjiške župnije naletimo že leta 1606. Leta 1766 se v trgu Konjice omenja družina uglednega krznarja Lambrechta. Ko so leta 1770 s terezijanskimi reformami uvedli hišne številke, je bila krznarjeva hiša označena s številko 60. Iz krstnih knjig je razvidno, da so krščence iz hiše 60 vpisovali kot Lambrechta, včasih pa tudi kot Lamprechta. Slovenski zgodovinar Jože Koropec meni, da je priimek nastal iz imena Lambert, kajti na razširjenost tega imena naj bi vplivalo poimenovanje cerkve na Skomarju po sv. Lambertu. Franc Lambrecht (ustanovitelj dobrodelne ustanove) je bil rojen 27. januarja 1809 v Konjicah, in sicer Benediktu Vincencu Lamprehtu in Trezi Vukovšek. Pri 20 letih je odšel po svetu, doma pa so v trški hiši št. 60 ostali starši, sestra Marija in brat Miha. Franc Lambrecht se je ustalil v Hamburgu in leta 1844 postal tudi hamburški meščan ter si tam ustvaril družino. Toda nikoli ni pozabil na rodno Konjico, zato je že pred 21. avgustom 1863 konjiškemu trškemu predstojništvu izročil veliko vsoto kapitala za predvideno dobrodelno ustanovo. Dne 21. avgusta 1863 je bila njegova izjava s 17 člani napisana pri konjiškem cesarsko-kraljevem notarju Francu Rateju kot listina s številko 2993. Izjava je bila sestavljena v nemškem jeziku. Leta 1902 pa jo je cesarsko kraljevsko namestništvo v Gradcu vneslo v Ustanovno listino, izpustili pa so 17. člen s podpisami konjiških veljakov. V upravi Lambrechtovega doma se nahaja dokument – Ustanovno pismo (gre za prevod zgoraj navedene Ustanovne listine) iz leta 1938, kjer je na koncu navedeno, da se poslovenitev ujema z nemškim izvirnikom.

V ustanovnem pismu je med drugim zapisano: „Jaz, Franc Lambrecht, sem bil rojen v trgu Konjice v letu 1809, kjer sem preživel svoja mladostna leta. Svojo navezanost na svoj rojstni kraj želim potrditi na ta način, da ustanovim za vse večne čase dobrodelno ustanovo za reveže pod imenom „Ubožna ustanova Franca Lambrechta v Konjicah“. Odroram, da se v bližini trga Konjice zgradi dom ubogih v dvajset ustanovnimi prostori. V ta dom naj se sprejemajo reveži obojega spola brez razlike veroizpovedi, ki so postali zaradi visoke starosti ali zaradi telesne oslabelosti nesposobni za delo in nezmožni za svoje vzdrževanje.“ Franc Lambrecht je želel, da bi ustanova začela delovati najkasneje do 1. novembra 1866, toda gradnja je zahtevala več časa. Stavbno zemljišče je konjiška trška občina kupila 28. novembra 1863 od gospe Jožefe Vogelsinger. Posest je bila vpisana v katastrski občini Konjice pri vložni številki 52. Stavba je bila dokončana leta 1870 in je v njej verjetno že istega leta začela delovati dobrodelna ustanova. Z zanesljivostjo pa lahko trdimo, da je ustanova delovala leta 1871, kajti v konjiški mrliški knjigi je zapisano, da je v stavbi „Lambrechtinum“ umrla 78-letna vdova Eva Benešofski. Franc Lambrecht je nazadnje živel v Gradcu, kjer je 15. aprila 1878 umrl. 17. aprila 1878 so ga pokopali v lastno grobnico pri cerkvi sv. Ane v Slovenskih Konjicah. Konjiški nadžupnik (1875–1881) dr. Jože Ulaga, je ob tem dogodku v župnijsko kroniko zapisal: „19. aprila 1878 je na veliki petek pokopan pri sv. Ani rojak Franc Lampreht, ki se je po svetu milijone nabral in je v Gradcu umrl. Truplo so z Gradca z vlakom na krasnem mrliškem vozu pripeljali ter je bilo od četrta na petek v hiralnici – Lambrechtinum položeno; 4 vranci so ga peljali k sv. Ani, kder na desni strani pri vhodu v cerkev v lastnem, za 42 gld odkupljenem izidanem grobu počiva.“

Leta 1906 je ustanova dobila uradno latinsko ime Lambrechtinum. Ustanovo je zelo prizadela 1. svetovna vojna. Avstroogrška država je namreč za lastno zmago zahtevala visoka vojna posojila tudi od osnovnega Lambrechtovega kapitala, ki je bil v Gradcu. Avstroogrška oblast je pritiskala na predstojništvo Lambrechtinuma, ki je nazadnje pristalo na posojilo 40.000 kron. Ustanovni kapital

je tako kopnel, avstroogrške zmage pa ni bilo. Po razpadu Avstro-Ogrske, leta 1918 je ustanova dočkala novo oblast – Kraljevino Srbov, Hrvatov in Slovencev. To obdobje zaznamuje neugodno finančno stanje ustanove, ker nova država ni več izplačevala obresti od predvojnih državnih obveznic. Leta 1935 se je Lambrechtinum preimenoval v Ubožno ustanovo Franca Lambrechta. V teh letih so se poleg finančnih težav pokazale tudi težave v zvezi z redom in s čistočo. Konjiški arhidiacon Franc Tovornik je predlagal, da bi sklenili pogodbo z usmiljenimi sestrami sv. Vincencija Pavelskega iz Radeč. Pogodba je bila podpisana 3. februarja 1938. Iz pogodbe je razvidno, da je Družba usmiljenih sester sv. Vincencija Pavelskega v Konjicah prevzela oskrbovanje ustanove ter poskrbela za red in čistočo, Občina Slovenske Konjice pa je bila po tej pogodbi dolžna plačevati vse denarne obveznosti v ustanovi. Kmalu zatem so ugotovili, da ustanova nima več denarnih sredstev, ki jih je za delovanje zagotovil ustanovitelj, kajti letna inflacija, menjava denarja po prvi svetovni vojni in odnos države pri izplačevanju obresti so naredili svoje. Zaradi omenjenih težav je predstojništvo sklenilo, da se ustanova reorganizira po jugoslovanskem Zakonu o ustanovah. V skladu s tem je bil 12. maja 1938 sprejet Dodatek k ustanovnemu pismu „Ubožne ustanove Franca Lambrechta v Konjicah“, iz katerega je razvidno, da se ustanova preimenuje v „Občinsko zavetišče Franca Lambrechta v Slov. Konjicah“. V dokumentu je navedeno, da „služi ustanova za preskrbo ubožnih cele občine Slovenske Konjice, kateri imajo zaradi visoke starosti ali zaradi telesne oslabelosti po ustanovni listini pogoje za sprejem v občinsko zavetišče“. Uprava ustanove je lahko proti plačilu in v primeru, da je bil v domu še prostor, sprejela v zavetišča tudi reveže iz drugih občin. Iz dokumenta je tudi razvidno, da se je Občina Slovenske Konjice zavezala, da bo ustanovo hišo z lastnimi sredstvi povečala za eno nadstropje. Po sprejemu dodatka k ustanovnemu pismu je kraljeva banska uprava Dravske banovine v Ljubljani zavetišče sprejela pod državno nadzorstvo. Dogovore in načrte o nadzidavi zavetišča je prekinila 2. svetovna vojna. Kmalu po osvoboditvi so redovnice odslovili (1948), ustanovo pa preimenovali v Dom onemoglih Slovenske Konjice, ki je bil do 30. aprila 1954 „proračunska ustanova“, s 1. majem 1954 pa je postal finančno samostojen zavod. 1. januarja 1959 se je njegovo ime zopet spremenilo, in sicer v Lambrechtov dom. Nadzidava in prenova doma se je začela leta 1974, oskrbovanci pa so v tem času bivali v Windischgrätzovi graščini, kjer zdravstvene in higienske razmere niso bile ustrezne. Gradbeni dela so zaključili leta 1976, vendar so zaradi premajhnih kapacitet leta 1979 začeli graditi prizidek, ki so ga zaključili leta 1981. Leta 1993 je bil Lambrechtov dom s sklepom Vlade Republike Slovenije preoblikovan v javni socialno-varstveni zavod. Kot zanimivost dodajamo, da Konjičani niso pozabili na zaslužnega dobrotnika Franca Lambrechta, saj se ulica ob dobrodelnem domu danes imenuje Lambrechtova. V letih od 2007 do 2009 je potekala intenzivna obnova Lambrechtovega doma. V tem času so del varovancev začasno preselili v Župnijski dom Slovenske Konjice.

Among a long list of charitable deeds carried out by the people of Konjice, this one from 1863 certainly stands out. The deed we are talking about comes from Konjice's compatriot Franc Saleški Lambrecht, who donated a large sum of money towards the housing of the poor and founded the Franc Lambrecht Institute for the Elderly. This was one of the first of these homes for the elderly in Slovenia.

We find the Lampret family name originates from Škalc and appears in the registers of the Konjice parish as early as 1606. In 1766, the family of the eminent furrier Lambrecht is mentioned in Konjice Square. When house numbers were introduced by the Theresian reforms in 1770, the furrier's house was marked as number 60. It is evident from the

baptismal books that the Christians who lived at house 60 were recorded as Lambrechta, and sometimes as Lamprechta. Slovenian historian Jože Koropec believes that the surname originated from the name Lambert, because the prevalence of this name in records. It is said to be influenced by the naming of the church in Skomarje after St. Lambert. Franc Lambrecht (founder of the charity) was born on January 27, 1809, in Konjice, to Benedikt Vincenc Lamprecht and Treza Vukovšek. At the age of 20, he went around the world, and his parents, his sister Marija and his brother Miha stayed home in their market house, no. 60. Franc Lambrecht settled in Hamburg, and in 1844 he became a citizen there and started a family. But he never forgot his native Konjice. So even before August 21 1863, he handed over a large sum of capital to the Konjice Market Administration to go towards a planned charity. On August 21, 1863, he wrote a 17-page statement to the Imperial-Royal Notary of Konjice, Franc Rate, which was recorded as document No. 2993. The statement was drawn up in German. In 1902, the Imperial Royal Vice Royalty in Graz included it in the Charter and Article 17 was released with the signatures of Konjice dignitaries. In the administration of Lambrecht's home there is a document, entitled the Letter of Incorporation (it is a translation of the above-mentioned Charter) from 1938. At the end it is stated that the Slovenized version of the Charter corresponds to the German original.

The founding letter states, among other things: „I, Franc Lambrecht, was born in Konjice Square in 1809, where I spent my youth. I would like to confirm my attachment to my birthplace by establishing a charity for the poor for all eternity under the name „Franc Lambrecht's Poor Foundation in Konjice“. I order that a home for the poor with twenty founding premises be built near Konjice Square. Poor people of both sexes, regardless of religion, who have become incapable of work and unable to maintain themselves due to old age or physical weakness, should be admitted to this home.“ Franc Lambrecht wanted the institution to start operating no later than November 1 1866, but construction required more time. The building land was purchased by the municipality of Konjice on 28 November, 1863, from Mrs. Jožefa Vogelsinger. The property was registered in the cadastral at the Municipality of Konjice and is recorded as entry number 52. The building was completed in 1870 and the charity probably started operating in the building that same year. We can say with certainty that the institution operated in 1871, because it is written in the Konjice death register that a 78-year-old widow, Eva Benešofski, died in the „Lambrechtinum“ building. Franc Lambrecht eventually resided in Graz, where he died on 15 April, 1878. On April 17, 1878, he was buried in his own tomb near the church of St. Ana, in Slovenske Konjice. Konjice's archpriest dr. Jože Ulaga (1875-1881), wrote in the parish chronicle about this event: „On April 19, 1878, Good Friday, he was buried at St. Ana's Church. Compatriot Franc Lampreht, collected millions around the world and died in Graz. The body was brought from Graz by train in a beautiful hearse and was laid in the chiral room from Thursday to Friday – Lambrechtinum; 4 men dressed in black took him to St. Ana's Church. He rests on the right side of the entrance to the church in his own tomb built and redeemed for 42 gld.“

In 1906, the institution was given the official Latin name Lambrechtinum. The institution was badly affected by World War I. The Austro-Hungarian state also demanded high war loans from Lambrecht's basic capital, which was in Graz, for its own victory. The Austro-Hungarian authorities put pressure on the presidency of the Lambrechtinum, which finally agreed to a loan of 40,000 kroners. The founding capital thus landed, and there was no Austro-Hungarian victory. After the disintegration of Austria-Hungary in 1918, the institution received a new government – the Kingdom of Serbs, Croats and Slovenes. This period was marked by the unfavourable financial situation of the institution because the new state no longer paid interest on pre-war government bonds. In 1935, the Lambrechtinum

was renamed the Franc Lambrecht Poor Institution. In these years, in addition to financial problems, there were also problems with order and cleanliness. The Archdeacon of Konjice, Franc Tovornik, suggested that a contract be concluded with the merciful sisters of St. Vincent Paulski of Radeče. The treaty was signed on February 3, 1938. It is clear from the contract that the Society of the Merciful Sisters of St. Vincencija Pavelski, in Konjice, took over the care of the institution and took care of order and cleanliness. The Municipality of Slovenske Konjice was obliged under this contract to pay all financial obligations in the institution. Shortly afterwards, they found that the institution no longer had the funds provided for its operation by the founder. It was affected by annual inflation, the exchange of money after the First World War, and the state's attitude toward paying interest. Due to the aforementioned problems, the presidency decided to reorganise the institution according to the Yugoslav Institutions Act. Accordingly, an Addendum to the founding letter of the „Franc Lambrecht's Poor Institution in Konjice“ was adopted on 12 May, 1938, which shows that the institution was renamed the „Franc Lambrecht Municipal Shelter in Sl. Konjice“. The document states that, „the institution serves to provide for the poor of the entire municipality of Slovenske Konjice, who, due to old age or physical weakness, according to the founding document, have the conditions for admission to the municipal shelter.“ The management of the institution could accept poor people from other municipalities into the shelter against payment and in case there was still room in the home. It is also evident from the document that the Municipality of Slovenske Konjice has undertaken to increase the founding house by one floor with its own funds. After the adoption of the addendum to the founding letter, the Royal Ban's Administration of the Drava Banovina in Ljubljana accepted the shelter under state supervision. Arrangements and plans to build the shelter were interrupted by World War II. Shortly after liberation (1948), the nuns were dismissed and the institution was renamed the Slovenske Konjice Home for the Disabled, which was a „budgetary institution“ until 30 April 1954, and became a financially independent institution on 1 May 1954. On January 1, 1959, the name was changed again to Lambrecht's Home. The extension and renovation of the home began in 1974, during which time the residents lived in the Windischgrätz Mansion, where the health and hygiene conditions were not adequate. Construction work was completed in 1976, but due to insufficient capacity, they began to build a new extension in 1979, which was completed in 1981. In 1993, Lambrecht's Home was transformed into a public social welfare institution by a decision of the Government of the Republic of Slovenia. It is interesting to note that the people of Konjice have not forgotten the deserving benefactor Franc Lambrecht, as the street next to the charity home is today called Lambrecht. In the years 2007 to 2009, an intensive renovation of the Lambrecht Home took place. During this time, some of the protégés were temporarily moved to the Parish Home of Slovenske Konjice.

NEPRIJETNE RESNICE O VODI IZ PLASTENKE / UNPLEASANT TRUTHS ABOUT WATER BOTTLES

Pijače iz plastenke so veliko breme za okolje, povzročajo odpadne plastenke, porabo energije, odpadne vode in izpuste CO2. Za en liter ustekleničene vode proizvajalci med delovnim procesom porabijo tri litre vode, ki konča kot odpadna voda. Voda iz plastenke je v Sloveniji povprečno 225 – krat dražja od pitne vode iz vodovoda, medtem ko je v svetu voda iz plastenke kar od 240 do 10.000 – krat dražja od pitne vode iz vodovoda. / Bottled beverages are a major burden on the environment. They create waste. The manufacturing of bottles consumes energy and produces waste water and CO2. Three litres of water are required to produce one litre of bottled drinking water. The three litres required for production ends up as waste water. In Slovenia, bottled water is on average 225 times more expensive than drinking water from the tap. In the wider world, bottled water is as much as 240 to 10,000 times more expensive than drinking water from the tap.

We pay special attention to the conservation of the bat species. Where the town of Slovenske Konjice meets Konjiška Gora, in a cemetery next to the church of St. Ana, there is a living colony of a special species of bats called little horseshoe bats. Explore, feel and enjoy the green experience of NATURE 2000 as part of the Prežigal Water Educational Trail and the Petelinjek Nature Learning Trail. Now is the time... for nature to inspire us.
