**M**edtem ko svetovni trendi narekujejo zdrav življenjski slog, črpajoč ideje za gibanje v kraljici športa, je vprašanje laikov mnogokrat: »Kje naj začnem?« Odlična novička: tek je v neki obliki primeren (skoraj) za vsakogar. Berite naprej!

Greh bi bil, ko bi živeči v Dravinjski dolini ali njen obiskovalec ne izkoristil zelenih površin, ki jih je le streljaj od prav tako sijajnih mestnih zaselkov začrtala narava.

### ČISTO ZARES: KAKO ZAČETI?

Odgovorite si na 3 vprašanja. 1. Kaj že počnem zase? 2. Česa se bojim? 3. Kakšen je moj cilj? 1. Večina ljudi si zase vzame premalo časa. 2. Povprečen človek se boji, da teku ne bo kos. Poglejte z druge strani: samo v Evropski uniji vsaj občasno teče 50 milijonov ljudi. Če zmorejo oni, zmorete tudi vi. 3. Če cilja nimate, si ga zadajte – tako boste imeli višjo motivacijo. Npr.: letos bom pretekel 10 kilometrov na Konjiškem maratonu, 29. 9. 2019.

### S CILJEM JE VSE ENOSTAVNEJE

Zdaj je treba začeti s treningi. Potrebujete tekaške copate in nekaj preizkusnih treningov. Da boste lažje videli napredek, si izberite stalno traso, v našem primeru naj bo to kar **trasa Konjiškega maratona na priloženem zemljevidu**. »Nikar ne hitite: s sabo vzemite družbo in tecite ritem, v katerem lahko še vedno kramljate. Če ne zmorete, nadaljujte s hitro hojo, čez kakšno minuto pa ponovno pospešite v tek. V vsakem primeru ste hitrejši od tistih na kavču!« k teku spodbuja idejni vodja Konjiškega maratona **Anton**

**Noner.** Ne fokusirajte se na utrujenost: poslušajte ptice in čutite vetrce, ki se podi skozi zelene veje.

### DRAVINJSKA DOLINA TEČE ŽE SEDMIČ

Pravljicnih sedmič bo letos postavljena najboljše ocenjena tekaška prireditev v Sloveniji (po oceni Atletske zveze Slovenije) – Konjiški maraton oz. Maraton z dušo. Lani so uvedli vseslovensko novost: **Glasbeni maraton**. Povabili so glasbenike, da se jim pridružijo, nato pa izbrali 10 najboljših in jih postavili ob traso. Tako vas **NAJMANJ** na vsakem kilometru čaka novo glasbeno presenečenje in tekaška motivacija. Lansko leto je kot prvi na svetu 10 km pretekel glasbenik Matej Banovšek in pri tem neprestano igral Golico na svojo harmoniko – ves zbrani denar pa je namenil za terapevtsko kolonijo otrok s cerebralno paralizo društva Sonček.

### IZBERITE MARATON Z DUŠO

Prvih 1.000 tekačev Konjiškega maratona (ki je rezerviran le za 1.500 tekačev, zato so lani prijave predčasno zaprli) čaka darilce: **vrhunška tekaška majica JOMA in izvorni lokalni darilni paket, ki vključuje zdravilno zeliščno sol Majnika**, ki jo obiskovalci lahko kupite v destinaciji in si iz nje ravno tako zmešate odlični izotonični napitek. Sol z Zeliščnega vrta Majnika je bila razglašena za kulinarčni spominek s strani Turistične zveze Slovenije in nosi znak »Okusi Rogla«. Tek je lep – ne zamudite ga.

### NARAVNI IZOTONIČNI NAPITEK NAM POMAGA PRI TEKU

Prav zares si lahko sami pripravite povsem

naravni izotonični napitek, ki vam pomaga po regeneraciji po teku. V 1 liter vode stisnete sok 1 (po možnosti ekološko pridelane) limone ter dodate pol čajne žličke zeliščne soli Majnika. Eko zeliščna sol Majnika vsebuje tradicionalno, nerafinirano Piransko sol in 19 različnih zelišč in začimb. To je povsem naraven in preprost izotoničen napitek, ki vam bo pomagal povrniti elektrolite, ki ste jih porabili med tekom. Na zdravje!

**While the global trends dictate a healthy lifestyle, drawing ideas for the movement in the queen of sport, the common question of amateurs is: „Where should I start?“ Excellent news; running is in a way suitable for (almost) everyone. Keep on reading!**

It would be a sin if the inhabitants of the Dravinja Valley or its visitors did not use the green areas, drawn by nature, only a short distance from the same magnificent urban hamlets.

### RATHER SERIOUSLY: HOW TO START?

Answer these 3 questions. 1. What am I already doing for myself? 2. What am I afraid of? 3. What is my goal? 1. Most people take too little time for themselves. 2. An average person is afraid that they will not finish the run. Look at it from the other side; in the European Union itself, 50 million people run at least occasionally. If they can do it, you can do it too. 3. If you do not have a goal, set it – in this way you will have a higher motivation. For example, this year I will run 10 kilometers in the Konjice Marathon on 29th September 2019.

### EVERYTHING IS MUCH EASIER WITH THE GOAL

Now it is time to start training. You need

running shoes and some test trainings. In order to recognize the progress with ease, choose a permanent route, in our case let it be the route of the Konjice Marathon on the attached map. „Do not rush: be accompanied by friends and run in a rhythm which still allows you to chat. If you are not able to do it, continue with the fast walk and after a minute or so speed up again into the run. In any case, you are faster than those on the couch!“, running is encouraged by the conceptual leader of the Konjice Marathon, Anton Noner. Do not focus on fatigue; listen to the birds and feel the wind rushing through the green branches.

### DRAVINJA VALLEY IS RUNNING FOR THE SEVENTH TIME

This year marks the fabulous seventh time in a row of the best-rated running event in Slovenia (according to the Athletic Association of Slovenia) – the Konjice Marathon or The Marathon with soul. Last year they introduced the all-Slovenian novelty: the Music Marathon. They invited the musicians to join them, then chose the top 10 and set them along the route. Thus, AT LEAST on each kilometer you are awaited by a new musical surprise and running

motivation. Last year Matej Banovšek ran the 10 km as the first musician in the world who was constantly playing the song Golica on his accordion. He dedicated all the money he gathered to the therapeutic colony of children with cerebral palsy of the Sonček Association.

### CHOOSE THE MARATHON WITH SOUL

The first 1,000 runners of the Konjice Marathon (reserved only for 1,500 runners, the registrations were closed early last year) will receive a small gift: an excellent JOMA running shirt and an original local gift package, including the Majnik Healing Herbal Salt. The visitors can buy the salt at the destination and can also make an amazing isotonic beverage with it. The salt from the Majnik Herbal Garden was proclaimed a culinary souvenir by the Tourist Association of Slovenia and bears the mark „Tastes of Rogla“. The run is beautiful – do not miss it.

### THE NATURAL ISOTONIC BEVERAGE HELPS RUNNING

You can truly prepare a completely natural isotonic beverage for yourself to help you regenerate after the run. Squeeze the juice of 1

(preferably organically grown) lemon and add half a teaspoon of the Majnika Herbal Salt in 1 liter of water. The organic Majnik Herbal Salt contains the traditional, unrefined salt from Piran and 19 different herbs and spices. This is a perfectly natural and simple isotonic beverage which will help you recover the electrolytes you have used during the run. Cheers!

## NARAVA IN ZNANJE Z ROKO V ROKI DO ZDRAVJA / Nature and knowledge hand in hand lead to health

**Diagnostični in rehabilitacijski center Term Zreče v proces zdravljenja vključuje zdravilno moč treh izjemnih naravnih zdravilnih dejavnikov – akrotermalne vode, pohorske šote in srednjegorske zdravilne klime.**

**Ste vedeli, da v enem letu rehabilitirajo več kot 11.000 pacientov in opravijo več kot 380.000 posegov?**

Na število ljudi, ki zaupajo prav zdravnikom iz Term Zreče, prav gotovo vpliva dejstvo, da so pridobili Mednarodni akreditacijski standardi za zdravstvene organizacije AACI, ki je dokaz za dvig kakovosti in varnosti zdravstvene obravnave za paciente, naj sodobnejšo medicinsko-rehabilitacijsko opremo, visoko usposobljene strokovnjake, pa tudi za odlično sodelovanje sodelavcev zdravstva v Termah Zreče. Tudi zadovoljstvo zaposlenega vpliva na topel nasmeh, ki pacientom še kako dobro dene.

### Širok nabor terapij

V programe zdravljenja in rehabilitacijske postopke vključujejo vse standardne fizioterapevtske postopke, kot so kinezioterapija, hidrototerapija, elektroterapija, mehanoterapija in termoterapija. Poleg standardnih postopkov posebno pozornost namenjajo razvoju strokovnih specialnosti:

• Terapija Trigger: za zmanjšanje bolečin ter izboljšanje koordinacije in obsega gibljivosti.

• Nevromišični taping: pri poškodbah, otečenih sklepih in občutku nestabilnosti v sklepu.

• proprioceptivna terapija

• Bownova terapija: nežna manualna tehnika za lajšanje širokega nabora telesnih bolečin, varna tudi za starejše in novorojenčke.

• Terapija Bobath: pri okrevanju po možganski kapi, nevroloških obolenjih in otrocih z razvojnimi motnjami.

• Radialni udarni valovi: proti nabiranju kalcija v rami, kolku ali komolcu.

### Narava tudi sama iznajde zdravila

Zdravilne dejavnike, ki jih podarja narava, je treba znati uspešno izkoristiti. V Termah Zreče jih uporabljajo v različnih postopkih zdravljenja pri poškodbah in obolenjih gibal, operacijah hrbteničnih obolenj, športnih poškodbah in rekonstruktivnih operativnih posegih na gibalih, degenerativnih in vnetnih obolenjih gibal, obolenjih perifernega živčevja ter ginekoloških in onkoloških operativnih posegih.

**The Diagnostic and Rehabilitation Center of Terme Zreče Spa engages the healing powers of three exceptional natural healing characteristics – the Acrotothermal Water, Pohorje Peat and Mountain Highland Healing Climate.**

**Did you know that more than 11,000 patients are rehabilitated and more than 380,000 interventions are made in one year?**

The number of people who trust the doctors of Terme Zreče Spa is certainly affected by the fact that they have acquired the American Accreditation Commission International Standards for Healthcare Organizations (AACI). This proves the increased quality and safety of medical treatments for patients, the most modern medical rehabilitation equipment, highly qualified experts and also excellent cooperation of health workers in Terme Zreče Spa. The satisfaction of employees also influences a pleasant smile, which positively affects the patients.

### A wide range of therapies

The treatment programmes and rehabilitation procedures include all standard physiotherapy procedures, such as kinesiotherapy, hydrotherapy, electrotherapy, mechanotherapy and

thermotherapy. In addition to the standard procedures, special attention is dedicated to the development of professional specialties, such as:

• Trigger Therapy: to reduce pain and improve coordination and the level of flexibility.

• Neuromuscular Tapping: for injuries, swollen joints and feeling of instability in joints.

• Proprioceptive Therapy

• Bowen Therapy: a gentle manual technique for relieving a wide range of body aches, also suitable for the elderly and newborns.

• Bobath Therapy: for recovery after stroke, neurological diseases and children with developmental disorders.

• Radial Shock Wave Therapy: against the accumulation of calcium in shoulders, hips or elbows.

### Nature also invents medications of its own

The healing characteristics which nature gifts us should be successfully taken advantage of. In Terme Zreče Spa, they are used in various treatments of injuries and diseases of limbs, operations of backbone diseases, sport injuries and reconstructive surgical procedures on limbs, degenerative and inflammatory diseases of limbs, diseases of peripheral nervous system and gynecological and oncological operations.

# PLEMIŠKA RODBINA WINDISCHGRÄTZ NA KONJIŠKEM

## / The Noble Family of Windischgrätz in the Konjice Region

mag. ALEKSANDRA BOLDIN / M.A.

Predsednica Zgodovinskega društva Konjice in profesorica na Gimnaziji Slovenske Konjice / President of the Historical Society of Konjice and professor at the Slovenske Konjice Gymnasium

DVOREC TREBNIK, RAZGLEDNICA IZ LETA 1927  
/ TREBNIK MANOR, POSTCARD FROM YEAR 1927

Vir: Zasebna zbirka Bojan Padežnik / Private collection of Bojan Padežnik

Rodbina Windischgrätz je bila ena najuglednejših plemiških rodbin v tedanji habsburški monarhiji. Po izsledkih zgodovinsko-rodoslovne razprave D. Trstenjaka, začetki rodbine Windischgrätz segajo v 11. stoletje na Koroško; rodbina Windischgrätz naj bi bila povezana s Slovenj Gradcem. S širšim Konjiškim in okolico je povezana mlajša veja rodbine Windischgrätz, ki jo je podrobneje raziskala dr. Tanja Žigon. Ta veja rodbine Windischgrätz se navezuje na Werianda Windischgrätza (roj. 1790), ki je sredi 19. stoletja kupil precej gospoštvo in njim pripadajočih gradov na območju današnje Slovenije: Planina (Haasberg), Šteberk (Stegberch), Logatec, Jama pri Postojni, Bogenšperk, Slatno, kasneje pa še Konjice, Žiče, Oplotnico, Podčetrtek, Bizeljsko, Podsredo. Rodbina Windischgrätz je avgusta 2016 obiskala svoje nekdanje gradove na Slovenskem. Ob tej priložnosti so na Trebniku odprli svojo rodbinsko razstavo in s svojo plemenitostjo v pravem pomenu besede pri obiskovalcih pustili pomemben pečat. Knežjo čast je rodbina dobila leta 1822, ko sta bila brata Weriand in Alfred Candidus povzdignjena v kneza. Kot knez se je Weriand poročil s princeso Marie – Eleonore Lobkowitz, ki mu je rodila štiri sinove in hčerko. Njegov drugorojeni sin Hugo Alfred je po njegovi smrti poleg Konjic podedoval tudi vsa že prej omenjena gospostva na Kranjskem in Štajerskem. Leta 1849 se je knez Hugo Alfred poročil s princeso Luiso Mecklenbure – Schwerin. Rodili so se jima štiri otroci, in sicer Alexandrine (1850), Hugo Weriand (1854), Olga (1853), Marie (1856). Po zadnjem porodu je kneginja Luisa kmalu umrla, knez pa se je posvetil vojaškim zadevam in lovu. Windischgrätzji so bili znani kot strastni lovci, le-ta pa jim ni pomenil le razvedrila, rekreacije, ampak tudi posel. Knez se je leta 1867 ponovno poročil – s princeso Mathildo Radziwill. V drugem zakonu so se mu rodili trije otroci, toda vsi so umrli že v otroških letih. Po smrti Huga Alfreda (1904) so družinska gospostva prešla na sina Huga Werianda. Hugo Weriand je bil po poklicu pravnik, vendar je kasneje izbral vojaško kariero, udeležil se je tudi soške fronte. Leta 1885 se je knez Hugo Weriand poročil s princeso Christiano Auersperg. Iz njenega zakona izvira enajst otrok: Louissette (1886), Hugo Vinzenz (1887), Elizabeth Mathilde (1889), Alfred (1890, roj. v Konjicah), Eduard Vinzenz (1891, rojen v Konjicah), Olga (1893), Wilhelmine (1895), Franz Jozef (1896, roj. v Konjicah), Maria Gabrielle (1898, roj. v Konjicah), Gottlieb (1899, roj. v Konjicah), Maria Antonietta – Manetti (1911, roj. v Konjicah).

Najstarejši sin kneza Huga Werianda in kneginje Cristiane, Hugo Vinzenz je bil poročen s princeso Leontino Fuerstenberg, s katero je imel štiri otroke: Irmo (1913), dvojčka Huga in Maximiliana (1914) in Friedricha. Najstarejši sin kneza Huga Werianda in kneginje Cristiane, Hugo Vinzenz je bil poročen s princeso Leontino Fuerstenberg, s katero je imel štiri otroke: Irmo (1913), dvojčka Huga in Maximiliana (1914) in Friedricha. Windischgrätzji so konjiško gosposčino skupaj s pripadajočimi gradovi in dvorci kupili leta 1828. Graščina Trebnik v Konjicah, imenovana tudi Windischgrätz je bila verjetno pozidana po letu 1621, ko je trebniško posest kupil od Erazma Trebnškega kupil Kristof Tattenbach. Med leti 1670 in 1685 je bila graščina v cesarskih rokah, leta 1692 pa so konjiško gosposčino s pripadajočim Trebnikom kupili žički kartuzijani. Po jožefinskih reformah je upravo nad stavbo prevzel verski sklad, ki jo je upravljal od 1783 do 1828, ko torej njeni lastniki postanejo Windischgrätzji, kot zadnji plemiški lastniki graščine Trebnik. V njej niso stalno prebivali; bila je ena izmed njihovih rezidenc, kamor so prihajali večkrat letno. Starejši Konjičani se preko pripovedovanja svojih prednikov spominjajo kneginje Christiane, ki je po smrti moža Huga (+ 1920) živela na dvorcu. Po pripovedih domačinov je Christiane bila lepota, veliko je potovala. Bila je ljubiteljica umetnosti in je tudi sama rada slikala – v graščinski vrtariji je imela svoj alej. A. Stegenshek (Konjiška dekanija) omenja, da je še leta 1909 v vrtariji stal baročni kip svete Magdalene, ki je bil sem prinesen iz Žičke kartuzije (danes v Pokrajinskem muzeju Maribor), saj so Windischgrätzji z nakupom konjiške gosposčine postali tudi lastniki ukinjene Žičke kartuzije. V pisnih virih s Konjiškega in v časopisu Slovenski gospodar (1894) je zabeleženo, da je kneginja Christiane karitativno delovala – bila je med ustanovitelji Bolnišnice Bolnišnjice Rdečega križa v Konjicah; ob raznih priložnostih je denarno, s hrano, z oblačili in obutvijo ter šolskimi potrebščinami obdarjala revne konjiške otroke. Windischgrätzji so občasno živeli v graščini do druge svetovne vojne, med vojno pa so sem redkeje prihajali, kajti del stavbe so zasedli Nemci, ki so tu imeli zapore. Nacizmu rodbina ni bila naklonjena. Windischgrätzji so med vojno nekaj pohištva odpeljali v Avstrijo. Ostalo opremo graščine so po vojni okoličani razvažali v svoje domove in je precej tudi uničili, mnogokrat tudi za kurjavo. Do kulturne dediščine takrat ni bilo pravega odnosa, se spominjajo starejši Konjičani. Danes v graščini skoraj ni več originalnega pohištva iz obdobja

Windischgrätzov. Današnji graščinski kompleks obsega dve stavbi – večja je dvonadstropni dvorec, ki je bil v 18. stoletju temeljito preurejen za bivanje knežje rodbine. V pritličju graščine, desno od vhoda je bila nekoč graščinska kapela, v kateri je najeti duhovnik med tednom vsako jutro maševal. Ob nedeljah so Windischgrätzji hodili k maši v cerkev, kjer so nad zakristijo imeli svojo sobico s klopjo in pečjo. Pred dvorcem Trebnik je nekdanja pristava (l. 2014 obnovljena), v kateri so bila v 1. nadstropju stanovanja za služabnike in osebje: kuharje, strežnike, konjarje, šoferja, spletične, guvernanke za deklice, sluge za dečke, pestunje, dojilje, ... Imeli so tudi svojega duhovnika, učitelje (za tuje jezike, glasbo, telovadbo ...), medicinsko sestro ipd. Graščinski kompleks je obdajal park z eksotičnimi drevesi in grmovnicami ter skrbno urejenimi cvetličnimi gredicami, med katerimi so vodile bele poti. V parku sta bila nekoč dva ribnika, od katerih je ohranjen le eden, drugega so leta 1974 zasuli in na tem mestu uredili teniško igrišče. Sicer pa so tudi Windischgrätzji igrali tenis; ob vrtariji sta bili dve igrišči, eno za otroke in drugo za odrasle. Skrb za »zdrav duh v zdravem telesu« je bila ena izmed njihovih vodil. V eni izmed pomožnih stavb so uredili kegljišče. Nad parkom na Konjiški gori so bile jahalne steze in sprehajalne poti. Ob graščini je nekoč stala tudi mogočna košata lipa, ob kateri je bila marmorna miza s klopjo (iz Žičke kartuzije). Ob 850-letnici ustanovitve Žičke kartuzije jo je Občina Slovenske Konjice zopet vrnila v nekdanji samostan. Druga svetovna vojna in spremenjen družbeni red po njej sta trebniško graščino, predvsem pa njen park močno prizadeli. Nasadi v parku so bili delno uničeni že leta 1944, ko je graščino zasedla nemška policijska enota, ki je okrog graščine skopala strelne järke. Leta 1955 so porušili vse ute in odpeljali svetniške kipe v Pokrajinski muzej Maribor. K pomembni kulturni dediščini naših krajev spada tudi Graščina v Oplotnici, ki je bila po navedbah A. Stegenskega pozidana v 17. stol. s strani žičkih kartuzijanov, ki v njej uredijo čudovito kapelo z zgodnjebaročnimi štukaturami in je danes skupaj z dvorcem obnovljena. Na pročelju graščine je v niši ohranjena baročna skulptura sv. Janeza Krstnika (iz žičke kartuzije). Oplotniško posest je 1. štajerski vojvoda, Otakar IV. Traungavec že v 12. stol. podaril žičkim kartuzijanom, ki so tukaj imeli svojo pristavo. Lastništvo graščine je po ukinitvi Žičke kartuzije l. 1782 povezano z istimi lastniki kot dvorec Trebnik v Konjicah. Tako so Windischgrätzji kot lastniki dvorca po l. 1828 v njej uredili stanovanja višjih uradnikov, ki so vodili njihovo steklaro, opekarno, žago in

gozdove. K Windischgrätzovi posesti je spadal tudi Partovec, ki je bil v njihovem času urejen kot park, grajsko sprehajališče z ribnikom in gozdom z raznolikimi živalskimi vrstami. Danes spada Partovec med pomembne spomenike naše naravne dediščine.

The Windischgrätz family was one of the most respected noble families in the Habsburg Monarchy at the time. According to the results of D. Trstenjak's historical-genealogical debate, the beginning of the Windischgrätz family dates back to the 11th century in Carinthia when the Windischgrätz family was supposedly connected with Slovenj Gradec. The younger branch of the Windischgrätz family is connected with the wider Konjice region and its surroundings, which was researched in detail by Dr. Tanja Žigon. This branch of the Windischgrätz family is related to Weriand Windischgrätz (born in 1790), who bought a lot of estates and the corresponding castles in the middle of the 19th century in the area of today's Slovenia: Planina (Haasberg), Šteberk (Stegberch), Logatec, Jama pri Postojni, Bogenšperk, Slatno, and later Konjice, Žiče, Oplotnica, Podčetrtek, Bizeljsko, Podsreda. In August 2016 the Windischgrätz family visited their former castles in Slovenia. On this occasion they opened the family exhibition at Trebnik. Their nobility in true sense of the word left an important impression upon the visitors. The family received the honor of Prince in 1822 when the brothers Weriand and Alfred Candidus were elevated to the rank of Prince. As Prince, Weriand married Princess Marie – Eleonore Lobkowitz, who gave birth to four sons and a daughter. After his death, his second son, Hugo Alfred inherited all the above-mentioned estates in Carniola and Styria, including Konjice. In 1849, Prince Hugo Alfred married Princess Luisa Mecklenbure – Schwerin. They had four children, Alexandrine (1850), Olga (1853), Hugo Weriand (1854), Marie (1856). Soon after the last birth Princess Luisa died and the prince dedicated himself to military affairs and hunting. The Windischgrätzs were known to be passionate hunters. Hunting was not just a leisure activity to them, it was also business. In 1867 the Prince married again – Princess Mathilda Radziwill. In the second marriage three children were born, but they all died in their childhood. After the death of Hugo Alfred (1904), the family estates passed on to his son Hugo Weriand. Hugo Weriand was a lawyer by profession, however later he chose a military career

and he also fought in the Isonzo Front. In 1885 Prince Hugo Veriand married Princess Christiana Auersperg. In their marriage eleven children were born: Louissette (1886), Hugo Vinzenz (1887), Elizabeth Mathilde (1889), Alfred (1890, born in Konjice), Eduard Vinzenz (1891, born in Konjice), Olga (1893), Wilhelmine (1895), Franz Jozef (1896, born in Konjice), Maria Gabrielle (1898, born in Konjice), Gottlieb (1899, born in Konjice), Maria Antonietta - Manetti (1911, born in Konjice). The oldest son of Prince Hugo Veriand and Princess Christiane, Hugo Vinzenz, was married to Princess Leontina Fuerstenberg. They had four children: Irma (1913), twins Hugo and Maximilian (1914) and Friedrich. The Windischgrätzs bought the Konjice estate together with the corresponding castles and manors in 1828. The Trebnik Manor in Konjice, also called the Windischgrätz, was probably built after 1621, when Krištof Tattenbach purchased the Trebnik estate from Erazem Trebnik. Between 1670 and 1685 the manor was owned by the emperor and in 1692, the Konjice estate with the corresponding Trebnik was purchased by the Carthusian monks from Žiče. After the Josephine reforms, the religious fund took over the building, and they managed it from 1783 to 1828, when its owners became the Windischgrätzs as the last noble owners of the Trebnik Manor. They did not live in it permanently. It was one of their residences they visited several times a year. According to the stories of their ancestors, the Konjice elders remember Princess Christiane who lived in the Manor after the death of her husband Hugo (+ 1920). According to the locals, Christiane was a beauty, she travelled a lot. She was an art fan and she also liked to paint herself - she had her own studio in the garden of the manor. A. Stegenšek (Konjice deany) mentions that in 1909 a baroque statue of St. Magdalene stood in the garden, which was brought from Žiče Charterhouse (today at the Regional Museum Maribor). When the Windischgrätzs purchased the Konjice estate they also became owners of the abolished Žiče Charterhouse. In the written sources from Konjice region and in the newspaper Slovenian Lord (1894), it was noted that Princess Christiane was active in charities - she was one of the founders of the Red Cross Hospital in Konjice. On various occasions, she gifted money, food, clothes, shoes and school supplies to the poor children from Konjice. The Windischgrätzs occasionally lived in the manor until the World War II. During the war they came here rarely, because a part of the building was occupied by the Germans who had prisons there. The family did not favor Nazism. During the war the Windischgrätzs took some furniture to Austria. After the war the other equipment of the manor was dispersed to the local homes and a lot of it was also destroyed, often for fire. The Konjice elders remember that at that time there was no real attitude towards cultural heritage. Today there is almost no original furniture in the manor from the Windischgrätz period. Today's manor complex comprises of two buildings - a larger two-story manor, which was thoroughly reconstructed in the 18th century for the li-

ving of the noble family. In the ground floor of the manor, to the right from the entrance, there used to be a manor chapel, where every morning during the week a hired priest held a Mass. On Sundays the Windischgrätzs walked to the Mass in the church where they had their own room with a bench and a stove above the sacristy. In front of the Trebnik Manor was the former Maierhof (renewed in 2014), where on the first floor there was the accommodation for servants and staff: cooks, servers, hostlers, a chauffeur, chambermaids, governesses for girls, servants for boys, nannies, wet nurses, various types of teachers (for foreign languages, the piano, gym, etc.). They also had their own priest, teachers (for foreign languages, music, gym ...), nurse, etc. The manor complex was surrounded by a park filled with exotic trees and shrubs and carefully arranged flower beds, among which the white trails led. There used to be two ponds in the park, of the two only one was preserved, the other one was covered in 1974 and made into a tennis court. The Windischgrätzs also played tennis. There were two courts at the plant nursery, one for the children and the other one for adults. Taking care of a „healthy spirit in the healthy body“ was one of their guidelines. In one of the auxiliary buildings they created a bowling centre. Above the park on Konjiška gora there were riding paths and walking trails. Next to the manor there used to stand a massive, bushy linden tree, alongside the marble table with benches (from Žiče Charterhouse). On the 850th anniversary of the establishment of the Žiče Charterhouse, the Municipality of Slovenske Konjice returned it back to the former monastery. The World War II and the change in social order extremely affected the Trebnik Manor, and especially its park. The plantations in the park were partially destroyed as early as 1944, when the mansion was occupied by the German police unit, digging the shooting trenches around the manor. In 1955 they demolished all the huts and transferred the statues of the saints to the Regional Museum Maribor. An important cultural heritage of our places also includes the Oplotnica Mansion. According to A. Stegenšek it was built in the 17th century by the Žiče Charterhouse monks. They created a beautiful chapel with early baroque stucco in it, and today, together with the manor it is restored. In the niche upon the facade of the mansion, there is a well-preserved baroque sculpture of St. John the Baptist (from the Žiče Charterhouse). The first Duke of Styria, Ottokar IV. in the 12th century already gifted the Oplotnica estate to the Žiče Charterhouse monks, who had their own Maierhof there. After the abolition of Žiče Charterhouse in 1782 the ownership of the mansion became associated with the same owners as the Trebnik Manor in Konjice. The Windischgrätzs as the owners of the manor after 1828 used the mansion to accommodate the senior officials who led their glass factory, brick factory, sawmill and forests. A part of the Windischgrätz property was also Partovec, which was designed as a park at the time, a promenade with a pond and forest with diverse animal species. Today Partovec is a part of important monuments of our natural heritage.

DRUŽINSKI SPREHOD PO POHORSKIH PLANJAH  
/ FAMILY WALK ON THE POHORJE MEADOWS

**Na izločanje serotonina, hormona sreče, vpliva tudi razbitje vsakodnevne monotonije, ki daje občutek, da življenja ne zajemamo s polno žlico. Dokazano je, da se počutje drastično izboljša, kadar se obdamo s prelepo naravo, saj zelena barva pomirja, gibanje vpliva na našo samozavest, svež zrak pa v naše telo vnese več kisika. Kadar možganom dodamo še dražljaj, ki ga še ne poznajo, pa se ustni koticiki že skoraj iz navade obrnejo navzgor.**

**Zatorej – odpravimo se na zeleno avanturo, kjer bomo počeli še kaj novega: na Roglo in v Terme Zreče.**

## ROGLA IN TERME ZREČE: KOLESARSKO-POHODNIŠKI RAJ

Gozdne ceste in poti se tam prepredajo in odpirajo nešteto možnosti. Obisk pragozda Šumik in njegovih slapov? Bi šli raje do Skomarja – najvišje ležeče vasice v Sloveniji? Lahko pa se enostavno »izgubite« v lepotah pohorskih gozdov. Če vaša fizična pripravljenost ni v zavirljivem stanju, se odpeljite na e-kolesu! Na drugi strani je Bike park Rogla svetišče adrenalinskih odvisnikov in downhill kolesarjev. Vso opremo si izposodite na licu mesta, nato pa ... Drvenje po urejenih potkah, lesenih ovinkih, skakalničah in drugih zabavnih ovirah.

## STE VEDELI? LOVRENŠKA JEZERA SO NAJVIŠJE LEŽEČE BARJE V SLOVENIJI.

Pohodnike navadno najbolj navdušijo slikovita Lovrenška jezera. Med Lovrenške bisere, kot jih imenujejo, spada 20 majcenih jezer, ki

sestavljajo najvišje ležeče barje v Sloveniji, katerega večji del porašča nizko ruševje, v jezercih pa raste dišeči beli lokvanj. So prav gotovo najbolj priljubljena pohodniška točka daleč naokrog, ki jo zaokrožuje še razgled s simpatičnega lesenega stolpa.

## MIRNEJŠI ŠPORTI: NORDIJSKA HOJA

Tisti, ki bi želeli doživeti in občutiti globoke pohorske gozdove in neskončne travnike, pa jim zdravje ali telesna pripravljenost tega ne dopuščata, navadno izberejo nordijsko hojo: zabavno in učinkovito hojo, ki zaposli in krepi 90 % vseh mišic na našem telesu. V Termah Zreče licencirana vaditeljica nordijske hoje svojim varovancem prikaže osnove nordijske hoje ter jih popelje npr. na skrivnostno (pra) zgodovinsko pot proti Brinjevi gori.

## DRUŽINSKE RADOSTI Z DOŽIVETJI V NARAVI

Otroci so najbolj navdušeni nad doživetji, ki so zrasla na prostranih Roglinih planjah ali pa se skrivajo nekje v senčki mogočnih dreves v okolici Term Zreče.

- Na Uniorčku stoji **Pohorska vasica** z 9 tematskimi hišicami in cerkvico. V vsaki vas čaka simpatična igra, ki ne samo neskončno zabava, temveč mlade modrece tudi spodbudi k razmišljanju.

- Že poznate Jezernika, povodnega moža, ki živi na Rogli? **Jezernikova pot** se začne pri Uniorčku in se nato vije med smrekami in preko mehkih mahov, ob gozdnem potočku, vse do jase na Mašinžagi, kjer se razširi v **Jezernikov vodni park**. Tam boste spoznali mlinčke, pretakali in spoznavali (na Pohorju še zelo čisto!) vodo ter iskali Jerine zlatnike.

- V **Termah Zreče** najmlajše (in seveda vse ostale) čakajo čofotalniki, bazenčki in bazeni, katerih naravna termalna voda jih bo plavalno

in igralno navduševala, med poletnimi počitnicami pa celo popeljala do Gozdnega vodnega parka s tobogani in prijetno senco visokih smrek na zeleni trati.

- Na **Škratovi učni poti** se skrivajo poučne table in lesene skulpture pohorskih živali. Za motivacijo boste na postajah zbirali luštne žige – cilj je zbrati vseh 6 in dobiti nagrado. Od letošnjega poletja naprej vas bo spremljal še prav poseben prijateljček: digitalni, čisto pravi Škrat! Na voljo bo mobilna aplikacija, s katero boste Škrata videli v živo v svojem okolju, vmes pa vas bo naučil še veliko naravoslovnih zanimivosti. Za večjo motivacijo kupite še avtentično slikanico s pravljico Pohorski škrat.

Uniorček, bo vaš najmlajši deležen prav posebne dogodivščine. Nad pohorsko naravo bo namreč odbrzel na **otroškem ziplinu**.

## ŠE NIKOLI VIDENO V SLOVENIJI: POT MED KROŠNJAMI POHORJE

To poletje, v avgustu oz. septembru, se Rogli obeta velika novost: prva pot med krošnjami v Sloveniji, ki jo bosta sestavljala 560 metrov dolgo sprehajališče do 20 metrov nad tlemi in 35 metrov visok razgledni stolp z dodatnimi 440 metri krožne poti. Gre za večinoma iz lesa izdelano konstrukcijo, kjer se boste lahko sprehodili visoko med smrekami in opazovali svet iz ptičje perspektive, sestavljala pa jo bosta sprehajališče in razgledni stolp, vmes pa nas bo navdušil še tobogan za zabavno spuščanje s stolpa.

## NOTRANJE RAVNOVESJE S ČUTNO POTJO IN ENERGIJSKIM PARKOM

Na Čutni poti na Rogli se bosi sprehodite po pohorskih naravnih materialih: storžih, lubju, produ itn. Poslušajte ptičje petje in šelestenje gozda. So tla v gozdu vlažna ali suha? Občutite veter na koži in v laseh? Povonjajte smrekove vejice, cvetlice in gozdne dišavnice. Na geomantičnih točkah Energijskega parka Rogla začutite dar narave - zdravilne energije Zemlje. Park ima namreč značaj ponotranjenja in izrazitega miru, ki regenerira in vzpostavi ravnovesje.

**Že imate svojo idejo, kaj boste počeli prvič?**

**The secretion of serotonin, the hormone of happiness, is also affected by the breakdown of everyday monotony, which creates the feeling that we do not make the best of our lives. It has been proven that the well-being improves dramatically when we are surrounded by beautiful nature, since the green color is soothing, the movement affects our self-esteem and the fresh air delivers more oxygen into our body. When the brain receives an unfamiliar stimulus, the mouth corners turn upwards almost out of the habit.**

**Therefore, let us embark on a green adventure, where we will be doing something new - to Rogla and Terme Zreče Spa.**

## ROGLA AND TERME ZREČE SPA: CYCLING-HIKING PARADISE

There are intertwined forest roads and trails which open countless possibilities. A visit to the Šumik rainforest and its waterfalls? Would you rather go to Skomarje - the

highest village in Slovenia? However, you can simply „get lost“ in the beauties of the Pohorje forests. If your physical level of fitness is not in an enviable state, ride an e-bike! On the other side there is the Bike Park Rogla, the sanctuary of adrenaline addicts and downhill cyclists. All the equipment can be borrowed on site, and then ... dashing down the well-kept trails, wooden bends, jumps and other entertaining obstacles.

## DID YOU KNOW? THE LOVRENC LAKES ARE THE HIGHEST MOOR IN SLOVENIA.

Hikers are usually most excited by the picturesque Lovrenc Lakes. 20 small lakes comprise the so-called Lovrenc Pearls which are the highest moor in Slovenia. Most of the moor is overgrown with dwarf pines, while the scented white water lilies grow in the lakes. They are, definitely, the most popular hiking destination in the area, which is rounded up by the lookout from a nice wooden tower.

## CALMER SPORTS: NORDIC WALKING

Those who would like to experience and feel the deep Pohorje forests and endless meadows, but their health or level of fitness does not enable them to, usually choose Nordic walking; fun and effective walking, which utilizes and strengthens 90 % of all the muscles in our body. At Terme Zreče Spa, a licensed Nordic walking trainer displays the basics of Nordic walking to her clients and takes them, for example, on a mysterious (pre-) historic route to the Brinjeva gora Mountain.

## FAMILY JOY WITH EXPERIENCES IN NATURE

Children are the most excited about the experiences that have emerged on the spacious Rogla plains or are hidden somewhere in the shades of mighty trees in the surroundings of Terme Zreče Spa.

• The **Pohorje Village** is situated on the

MEDGENERACIJSKI VADBENI PARK V TERMAH ZREČE / INTERGENERATIONAL TRAINING PARK AT TERME ZREČE SPA

Foto: Izidor Kocnik

Uniorček with 9 thematic houses and a church. Each of them presents a nice game, which not only offers endless entertainment, but also encourages thinking in wise youngsters.

• Have you already heard of Jezernik, the Water Man, who lives at Rogla? The **Jezernik's Trail** starts at the Uniorček and then it winds between spruce trees and over soft mosses, along the forest stream, all the way to the clearing at Mašinžaga, where it spreads into the **Jezernik Water Park**. There you will be introduced to small mills, will pour water and learn more about it (it is still very clean in Pohorje!) and search for Jera's gold coins.

• At **Terme Zreče Spa**, the youngest ones (and of course all the others) are awaited by the paddling pools, small pools and swimming pools. Their natural thermal water will enthrall them for swimming and playing games and during the summer holidays will even take them to the Forest Water Park with slides and pleasant shade of the tall spruce trees on the green lawn.

• Along the **Dwarf's Educational Trail** there are hidden educational boards and wooden sculptures of Pohorje animals. In order to motivate you, you will be collecting nice stamps at the stations - the goal is to collect all 6 and receive the reward. From this summer onwards you will be accompanied by a very special friend: a digital, quite real Dwarf! The mobile application will be available to help you see

the Dwarf live in its environment, and in the meantime he will also show you many natural science attractions. For additional motivation buy an authentic picture book with a fairy tale the Pohorje Dwarf.

• If you take the Uniorček as a starting point and head for the forest along the Košuta ski slope, approximately 100 meters away from the Uniorček Bar, your youngest child will be part of a special adventure. He or she will speed up on the **children's zipline** above Pohorje nature.

## NEVER SEEN IN SLOVENIA: THE POHORJE TREETOP WALKWAY

This summer, in August or September, Rogla is expecting a great novelty; the first treetop walkway in Slovenia, which will consist of 560 meters long promenade up to 20 meters above the ground and a 35-meter-high lookout tower with additional 440 meters of circular path. The construction is mostly made of wood and you will be able to walk high among the spruce trees and observe the world from a bird's eye view. It will consist of a promenade and a lookout tower, and in between the two we will be thrilled by the slide for an entertaining descent from the tower.

## SENSORY PATH AND THE ENERGY PARK FOR INNER BALANCE

You should walk barefoot along the Sensory Path at Rogla, walking on natural materials of Pohorje: cones, bark, gravel etc. Listen to the birds singing and the rustling of the forest. Is the soil in the forest wet or dry? Do you feel the wind on your skin and in your hair? Smell the spruce twigs, flowers and forest fragrances. Feel the gift of nature at the geomantic points of the Rogla Energy Park; the healing energies of the Earth. The park has the character of internalized and distinctive peace which regenerates and establishes balance.
